Offline & private

GSTR-1

One-click JSON export

1-click

Backup & restore

Lightning Billing

Keyboard-first sales & purchase vouchers. Product search, FEFO batch pick, auto GST & round-off.

Batch & Expiry

Track every batch/serial, MRP and expiry. Expiring & low-stock alerts so nothing is wasted.

GST Compliance

CGST/SGST/IGST, HSN summary, B2B/B2CL/B2CS, credit/debit notes & GSTR-1 JSON for the portal.

Parties & Ledgers

Customers & suppliers with live balances, receipts & payments, and outstanding reports.

Smart Reports

Sales/purchase registers, stock value, financial-year P&L, batch trace & duplicate-serial alerts.

Users & Roles

Create staff logins with tab-wise read/write access. Admin controls everything, even password resets.

Works without internet

All data lives safely on your own computer — no subscriptions to a cloud you can't control.

Easy data migration

Import items & parties from Marg / Vyapar / Tally CSV in minutes.

One-click backups

Protect your business with instant backup & restore of the entire database.

Genuine licensing

Secure activation, expiry reminders & one-device protection against misuse.

Simple plans that grow with you

One-time setup, transparent yearly renewals. Choose the plan that fits your counter today — upgrade anytime.
